Barbarous Mexico.
The Auditorium will show to-night and Thursday afternoon and night a three reel picture that will prove most interesting for it shows some actual happenings that have daily place in the lives of the Mexicans. It is called "Barbarous Mexico" and it was taken in a strife-ridden Mexico real battle scenes, the dead lying on the streets, bullet holes everywhere, the destruction of the city, the chase, the transportation of bodies, the floating coffins and many other interesting scenes. It is a picture taken by a famous cameraman and is the risk of their lives. It is a picture that is a masterpiece of the camera and is a picture that is a masterpiece of the camera and is a picture that is a masterpiece of the camera.

Scene from "The Light Eternal" at Auditorium, Friday Afternoon and Evening.

BACKACHE-RHEUMATISM, QUICKLY VANISH

Even Most Chronic Sufferers Find Relief From Few Doses of Crozone.
Crozone soon cures such conditions because it reaches the very roots of the disease. It soaks right into the system and cleanses the blood through the veins and capillaries, cleans out the bladder, kidneys, and the entire system, and dissolves the uric acid substances that cause the pain and cause the bladder and kidneys to become inflamed. It cleans out the bladder and kidneys and restores the system to its normal state so that the sufferer can live and work as usual.

KILBANE OUTPOINTS TOMMY WALSH IN TWELVE ROUNDS
Boston, Sept. 17. Johnny Kilbane of Cleveland, successfully defended his featherweight championship crown at catch weights before a crowd of at least 4,500 at the Atlas A. A. last night.
Walsh was completely outclassed in his twelve-round session. Kilbane knocked Walsh down with a right-hand smash to the jaw in the tenth round, and he would have knocked him out but for Walsh hanging on. It was a very slow contest for three rounds, for Walsh simply would not lead, in fact he led very few times in the first eight rounds. The only round where he did anything saving of a contest was in the last round. Kilbane fought in splendid style after he had tried out Jimmy in the first three rounds and found him absolutely wanting. In the fourth Johnny started with a fine right-hand smash to the jaw almost closed Jimmy's left eye. Jimmy blinked all through the contest. From that to the end it was all Kilbane and his right-hand punches to the jaw and drilling for the body at short range were Walsh down so that he was forever hanging on. Johnny tried to end the contest before the limit, but was too anxious. Walsh gave a good exhibition of defensive boxing. There was no question of the result. Jack McGowan of Philadelphia, the referee, declared Kilbane the winner.

CARNIVAL IS ATTRACTING BIG CROWDS

The second night of the Barfoot Amusement company's appearance in this city found the carnival grounds crowded in spite of a drizzling rain. The worth of the attractions, and the clean shows are attracting large numbers, and all the shows were largely patronized on Tuesday evening.
Following the opening of the shows, Fred Williams's Italian band which has been entertaining with daily concerts on the streets, gave an extended concert in front of the Arcade entrance on Third street. It is one of the best musical organizations ever heard in Newark.
The circus which opened a large variety of the most entertaining, Russian and Italian shows, the fat man shows, and the acts, the freaks and the acrobats, have up to date attracted a large crowd.
The amusement company, which has been in the city for a number of days, has been very successful in its efforts to attract a large crowd.

Today in Pugilistic Annals
1901—Jim Jeffries defeated Hank Griffin in 4 rounds at Los Angeles. Hank was a negro, but, unlike the big smoke who later whipped Jeff, he was a gentleman. Although Jeff was declared the victor in that 4-round affair, honors were pretty even, and Hank won \$10.00 offered by the champion to any man who could stand before him for four rounds. During the course of the fight Jeff was knocked down by the negro. That made Jeff somewhat peevish, and for the remainder of the bout Hank chased about the ring, dodging the big man's wild blows. Griffin tried in vain to get a match with Johnson, after the latter won the title, but Jack wisely avoided the pugilist boxer. Griffin died a year or two ago.

A Merchandising Event That is Creating Activity In Our Suit and Overcoat Department

THE way in which Licking county clothing buyers are responding to our opening values show they have confidence in our announcements.

People are buying overcoats earlier than usual this season; the reason is easily explained, for values like these are truly magnetic; the style, tailoring and individuality are beyond criticism. Year by year men and young men are learning that GREAT WESTERN quality is indisputably reliable; that prices are by far lowest.

In assembling these extraordinary values for the Fall and Winter of 1913 and 1914 we have picked from lines that are unquestionably strongest—It's a style exhibit representing an all star cast. You'll be just as anxious to buy your suit and overcoat of us as we were to buy them from the different manufacturers.

We Are Continuing to Sell High Grade \$8 and \$12 Lines of Medium Weight Suits at

Many of these suits are made by the house of Kuppenheimer, Society Brand and Class A. This gives you an unusual opportunity to save money. Let your eyes be your market.

We have made it a steadfast rule never to use strategy in our business. These garments advertised are on sale and can be had at The Old Reliable.

HOUSE TO ACCEPT CHANGES IN TARIFF

Expected to Agree to Senate's Amendments.

PROGRESSIVES TO PROTEST.

Chairman Underwood Shows Determination, However, to Insist on Some of the Clauses Stricken Out by Senate—The Man From Alaska Makes the Usual Complaint.

By ARTHUR W. DUNN.

Washington, Sept. 17.—[Special.]—The Democrats of the senate will have the best of the Democrats of the house in the conference on the tariff bill. The Democratic senators can point out the narrow margin they had on one or two schedules and that the caucus agreement extended only to passing the bill in the form presented by the finance committee—not to agree to the conference which made any great change from the senate bill.

And then, which is very important, the senators have the president behind them. The changes which the senate made suit the president, and it is doubtful whether Leader Underwood, powerful as he is in the house, would like to go back for an indorsement in a disagreement with the senate as long as the senate confers have President Wilson behind them.

Again Ready to Talk.

And besides, after two weeks' rest the senate will again be ready to talk. More especially the Progressives will make a strong protest should there be any particular change in the graduated income tax. In fact, it would be very hard to get the house to agree to the Underwood rate as against the senate rate on incomes unless the whole bill is tied up so that it must be accepted or rejected in one vote.

Chairman Underwood has shown considerable determination to insist upon the restoration of a number of house provisions, and it will be strange if he does not have his way, but he will have to surrender to the senate on many items.

The Man From Alaska.

"The man from Alaska" came to Washington a few days ago, and, as usual, he is not satisfied, because congress is neglecting the big territory, but that has been a common complaint of the man from Alaska for many years. "The bankers are not business men; the politicians are not business men," said this particular man from Alaska. "Now, how are we to secure a business administration?" And he went on to show how he had put up a perfectly fair proposition to Secretary Lane for the administration of Alaska, but the secretary said it was politically inexpedient; hence the wail of the man from Alaska.

Longs For the Days of Moore.

Evidently Minority Leader Mann longs for the days of Willis Moore as chief of the weather bureau. "Since we have had the weather bureau under scientific management," he told the house one day, "we have had a great many weather mistakes. I prefer more practical results and less scientific failures."

And at that the same men who made forecasts under Moore were making the forecasts now.

New Building Policy.

The house of representatives, particularly that portion which looks to public building appropriations as a means for helping to secure re-election, woke up the other day to the fact that it has for chairman of the public buildings committee a man who has distinct and economical ideas. Frank Clark of Florida gave utterance to this startling and unique idea:

"I believe we have reached the time when construction of public buildings at the expense of the government in little 2 by 4 towns ought to cease. The business should be conducted upon a practical, common sense basis. When we can secure suitable quarters in a town at a rental less than would pay the interest on money invested in a building, then a building should not be constructed."

That is a new doctrine, as millions of dollars have heretofore been appropriated for buildings in 2 by 4 towns where rented buildings could be obtained for less than half the interest on the cost and maintenance of the building.

Lack of Interest.

There were just forty-six members of the 443 in the house one day during the currency debate, and this was a fair average, judging from appearances. One reason was because the bill had been read up in caucus, and no amount of discussion or argument could have changed it. There is complaint about this method of legislation, mainly because the most important discussion goes on behind closed doors.

Poetry in the Tariff.

There is not much poetry in the tariff and less in Senator Catron of New Mexico, or, at least, that is what we all supposed until his speech on wool and western industries appeared in the senate proceedings, and we saw that he dropped into poetry, quoting from John Hay's celebrated "Prairie Belle," when Jim Bludsoe held "her nozzle agin the bank 'til the last galoot's ashore."

First Things

The first tunnel through the Alps the Mont Cenis or Col de Frejus tunnel, was formally opened forty-two years ago to-day, when a train of twenty-two carriages passed through in twenty minutes. The tunnel is a little less than eight miles long, and cost \$13,000,000. Plans for the tunnel connecting Italy and France were drawn up in 1848, but their execution were prevented by the war of the following year. The work of excavation was commenced in 1857. The Italians were in charge of the work, but the French government bore the chief expense. The next Alpine tunnel, the St. Gothard, over nine miles long was opened in 1881, and in 1884 the Alberg tunnel was inaugurated. The Wasserruh tunnel was completed in 1909, the Simplon in 1907, the Loetschberg was inaugurated this year, and the Mont d'Or is now building. The Simplon, twelve and one half miles is the longest. The highest railroad tunnel in the world, and the one most difficult of construction, is that through the Andes, connecting Argentina and Chile. It is 12,000 feet above sea level, and was opened in 1910.

NEW SYSTEM FOR REDUCING YOUR WEIGHT

(Associated Press Telegram)

Brookline, Mass., Sept. 17.—William H. Taft has lost several pounds in weight since laying down the cares which go with the office of president.

There is nothing alarming in this, however, for it was brought about by deliberate design, and Mr. Taft still tips the scales at 240 pounds. The reduction, though, is very noticeable.

All this was observed yesterday when Mr. Taft appeared for the contest for the open golf championship. He had dropped the weight by cultivating a big appetite through out-door exercise and then refraining from gratifying the appetite.

The Tariff Bill's Effect on Business

If there is any one line of business that would be especially sensitive to tariff legislation, according to the predictions of pessimistic high protectionists, that line would be the dry goods trade. Yet in the same week that the Senate passes the House bill the leading jobbing firm in Chicago notes a strong demand for goods, larger sales than at this date for several years, and rising prices. In New York there was a good business in dress goods, large buying of men's wear fabrics for next spring, and the prices of all sorts of cotton goods have advanced and buying has increased with the rise of prices. Instead of waiting for that inevitable slump after the enactment of a Democratic tariff that the Republicans have been predicting for many months. The business most susceptible to tariff changes seems to be in a pretty healthy condition. In fact, the calamity predictions that have been preached to us with such intensity the past several months will all look pretty absurd before many months of the future.

In this connection we are pleased to copy the following comment of that old-time Republican newspaper, the Ohio State Journal, under the caption of "Business and the Tariff": "Here is a market headline. 'Metals in General Show a Firmer Tone,' and then the article it prefaces goes on to tell of transactions in steel, pig iron, etc., in greater number and larger amounts than reported this time last year. This, right in the face of a radical change in the tariff laws! It is a hopeful sign. It may trespass upon our ancient ideas of protection, but that is not to be considered. If the Wilson tariff should introduce and maintain unparalleled prosperity, it will be the duty of every thoughtful citizen to throw up his hat and hurrah for it, however it may play havoc with his fond beliefs of other days. Whenever an ancient doctrine is shattered and shown to be unable to stand the test of experience, it is a time for congratulation rather than regret. We hesitate to believe that time has come with respect to the tariff, but if it has, it should not paralyze a single delight."

Health for School Children.

When the school pupil complains of headache, one's first thought is that a ball game is about to begin somewhere, or that there has been a chance to go on a picnic. Still the statisticians do say that there is an enormous amount of ill health among the children.

One writer says that in one recent school term, 16,000 children left their desks in five American cities, because of diseases and poor health. With facts like these to work on, the fourth International Congress of School Hygiene, in session at New York the past week, should be something more than a gathering of faddists.

Ready-made ventilation is supposed to be provided in a "modern" school house. Yet the complaint is still heard from many artificially ventilated buildings, that the air feels as if it were baked, and the children still have headaches.

The old-time school, if it was gifted with an alert teacher, often seemed to fare quite as well. She would have a thorough cleaning out of foul air about every hour. If the weather was cold, the children were turned around the room, and returned to their books with fresh energy.

Several years ago many thousands of New York children could attend school only half a day, on account of crowded buildings. A scientist investigated, and found that the "half timers" made better progress than those who attended all day.

Clean habits mean a great deal. From the sediment from a drinking cup in one school, an injection was

made into the skin of a healthy guinea pig, and he died in 40 hours. Let it be hoped that this worldwide gathering of school hygienists has some practical suggestions to prevent the costly interruption of school work by disease and anaemia. The tax payers don't get any return on their money while the doctors and nurses have the children.

An English scientist has raised the old cry that population is outstripping the production of food, and that in the not distant future, perhaps before the end of the century, posterity will be hard pushed to secure wheat enough for its daily bread. Why worry so much about posterity? Does not the Englishman know that the Canadian Northwest, which is not yet producing 200,000,000 bushels of wheat a year, can, when fully developed, easily grow five times that amount? Then there is Siberia, whose possibilities are enormous, not to speak of Australia and other countries whose resources have hardly been scratched. With better agricultural methods the United States could produce vastly more wheat than it does. The unsettled question is how much will prices be increased to consumers by the inevitable demands. Every generation has its own problems, which it must solve for itself, and the present seems to have more than its fair share. Let the people of the twenty-first century tackle their own troubles when they arise.

Visiting School.

Formerly if a parent visited school a tremor of awe and embarrassment swept around. The unfortunate offspring of the venturesome parent was pestered at recess for his mother's unwillingness to let him out of her sight.

The parental visit to the school room is a little more common nowadays. It is admitted to be the correct thing to do. But as a whole, the parents are more interested in inspecting the waists and shoes the children are buying than the interior finishing with which their heads are being stocked.

Most parents can't seem to give the children much help on their books now. Or if they try it, the children say they are "mixed up" by old-time terms and processes.

Nevertheless, the parent ought to be more than a passive factor. Better look around at the school house, and see how the kiddlets are doing. There may not be any more nouns and verbs like you were taught. But you should be able to form some idea of where they are failing. Then talk it over with the teacher.

ENJOY YOUR MEALS

Tune Up Your Stomach Right Away So It Will Do Its Own Proper Work.

Nothing takes the joy out of life like a weak stomach. Enjoy the good things that others enjoy. Take Dr. Williams' Pink Pills and notice the improved condition of your stomach.

When you have no appetite and even the sight of food is nauseating, no amount of dieting, stimulating drugs or any treatment that overlooks the blood will help you for any length of time. These pills go deeper than a remedy that acts on the stomach alone. They get at the real cause, which is impure blood. They make it red and healthy. The whole digestive system is toned up and where once the sight of food was nauseating, you will have a good appetite and be able to eat without distress. Do not put off finding relief a single day. Get a box of Dr. Williams' Pink Pills today and begin the treatment at once.

Viewing With Alarm.

When I go into Jimpeon's store, I find that Jimpeon's head is sore; his voice uplifting, he says: "I'm almost in despair, and every day I wonder where the country's drifting. Trade grows so bad I'm seeing red; ere long we all must go to bed without our suppers; the crops have all gone up in smoke, and every man I know is broke, and on his uppers. I do not get sufficient cash to keep my family in bash, which makes me dizzy, and things are growing worse and worse; the man who owns the village hearse alone is busy." I always hear that sort of spiel when I go into Jimpeon's store. And that is why I take my ore to old Dad Quander's store, across the alley; he always greets me with a chirp and gambols round me like a purp with quip and sally. The state of trade he doesn't curse, but, "things might be a whole lot worse," he says; "doggone it, I see a lot of trade ahead; daughter of President Wilson, was that Meriden, N. H., the other day. GEORGE CULLY DIES SUDDENLY OF HEART FAILURE

George Cully, brother of former county surveyor Fred S. Cully, died suddenly Tuesday night at the barn of the Hotel Reed in Hebron. Mr. Cully had just returned from Newark on the 10:30 car and on going to the barn heart failure seized him, death resulting at once. He was 54 years old and is survived by his wife, who is at the Pythian Home in Springfield, two sisters, Mrs. Mary Brown of Hebron, Mrs. Lillian Aid of Cleveland, and a brother, Robert Cully.

The body was taken to the Clunia undertaking establishment and prepared for burial. Later it was removed to the home of his sister, Mrs. Brown.

The funeral arrangements have not been made.

HOW TO MAKE YOUR HAIR BEAUTIFUL

Ten Minutes' Home Treatment Works Wonders, Stops Falling Hair, Itching Scalp and Dandruff and Makes the Hair Soft, Brilliant, Lustrous and Pluffy.

Better than all the so-called "hair tonics" in the world is a simple old fashioned home recipe consisting of a bath of Bay Rum, Lavona (decomposer), and a little Menthol Crystals. These three mixed at home in a few minutes, work wonders with any scalp. Try it just one night and you will see. Get from your druggist 2 oz. Lavona, 6 oz. Bay Rum and 1/2 dr. Menthol Crystals. Dissolve the crystals in the Bay Rum and pour in an 8 oz. bottle. Then add the Lavona, shake well and let it stand for an hour before using. Apply it by putting a little of the mixture on a soft cloth. Draw this cloth slowly through the hair, taking just one small strand at a time. This cleanses the hair and scalp of dirt, dust and excessive oil and makes the hair delightfully soft, lustrous and fluffy. To stop the hair from falling and to make it grow again rub the lotion briskly into the scalp with the finger tips or a medium stiff brush. Apply night and morning. A few days use and you cannot find a single loose or straggling hair. They will be locked on your scalp. A little hair will grow with wonderful rapidity. Any druggist can sell you the above. The prescription is very inexpensive and we know of nothing so effective and certain in its result.

Long experience has demonstrated that there is a clearly defined relationship between the percentage of interest earned and the percentage of safety secured.
Risky ventures naturally promise high rates of interest in order to attract money and the low percentage of safety is usually covered up by specious arguments, but a high rate of interest and great safety never have and never will go together.
In this Association we offer you 100 per cent safety and 4 per cent interest, the combination that years of experience in hundreds of sound financial institutions has proven consistent.

ANNUAL PARADE OF OLD VETERANS AT CHATTANOOGA

(ASSOCIATED PRESS TELEGRAM) Chattanooga, Tenn., Sept. 17.—Although a light rain was falling early this morning, indications were that the official program of the Grand Army of the Republic in annual encampment here would not be seriously interfered with. Shortly after nine o'clock, veterans began to assemble for the annual parade.

WANT MORE TIME BEFORE LOWERING EXPRESS RATES

(ASSOCIATED PRESS TELEGRAM) Washington, Sept. 17.—Application was made to the interstate commerce commission today by the express companies for an extension of time in which to prepare and put into effect the new express rates ordered by the commission in August. By the terms of the commission's order, the rates would become effective October 15. At a conference between members of the commission and counsel for the companies, it was represented to be impossible for the companies to comply with the order by October 15. It has not been possible yet, according to statements of counsel for the companies, to thoroughly analyze and prepare to have printed the necessary tariffs.

Secrets of Remarkable Formulas Revealed by Valuable Facts, the American Dramatic Star, Famous for Her Beauty. She Quickly Acquired Through Her Own Efforts.

By Miss Valerka Suratt

There is only one thing among the dozens of things I ever tried for the hair that produces results which you can actually see. The claims made for most of the hair tonics sold are very disappointing, as many women realize. The formula which I finally made up after many tests proved to be a very remarkable one. One of the best features about this formula is that you use one ingredient in concentrated form, and by making up the formula yourself in a few minutes you have several times the quantity which you would get by buying any of the ordinary already put-up hair tonics—and besides this economy you have not a weak hair preparation but a powerful hair-toner. You will soon notice a remarkable difference in growth, thickness and wealth of hair by using this formula freely and often.

Take a half a pint of water and mix it with half a pint of alcohol, or else take a full pint of imported bay rum if you wish, and add to it one

CONSIGNMENT OF ARGENTINE BEEF IS DISPOSED OF

(ASSOCIATED PRESS TELEGRAM) New York, Sept. 17.—The consignment of 100 tons of Argentine beef which arrived here Monday, the first big shipment ever brought to the United States, has all been disposed of. Part of it was sold to dealers in this city and found its way into retail trade. When sold as Argentine beef, the consumer got the benefit of a four cent reduction on the pound. The meat sold so well that butchers are beginning to inquire for it, but they will have to wait for the next cargo. What the original consignees got for it is held secret. Here, are some prices at which the steaks sold: Porterhouse and loin steaks, 15c per pound; prime rib roasts, 16c; round of beef, 18c; chuck roast 12 1/2c and soup meat 10c a pound.

TRIBESMEN KILL ITALIAN SOLDIERS

(ASSOCIATED PRESS TELEGRAM) Bergamo, Tripoli, Sept. 17.—The Italian commander, General Torelli and 23 Italian officers and men were killed in a battle yesterday with Arab tribesmen. The news reached this city today. The Italian list of wounded includes 15 officers and men. The Arab losses are not stated but were undoubtedly very heavy. The Italian column, which had been operating for some time against the tribesmen, found them strongly entrenched on a height commanding the Valley of Tenzia.

General Torelli fell at the head of his troops while urging them on to the attack.

SCOTT'S BOOK ON PRES. LINCOLN

Judge Donahue of the Ohio Supreme court, this expresses himself concerning Mr. R. Scott's Supposed Diary of President Lincoln:

"Columbus, O., Sept. 15, 1913.

"I have just read this book, and have found it intensely interesting from beginning to end. Mr. Scott is to be congratulated, not only upon his unique method of placing before his readers the attitude of President Lincoln upon every public question with which he had to deal, but particularly upon the remarkable way in which he has emphasized the important facts of history in the decade beginning with the repeal of the Missouri Compromise and ending with the death of Lincoln."

Gen. J. Warren Keifer of Springfield, O., a former speaker of the lower house of Congress, also expresses himself as follows:

"I have not had time to read the book carefully, but as far as I have gone I think it is wonderfully accurate and historically very valuable. It ought to be in all our public libraries and I have no doubt it can be introduced there."

Mr. Scott informs us that he has already sold copies of his book to the State libraries of Ohio, New York, New Jersey, Maine, Michigan, Montana and Kansas, besides a number of smaller libraries."

Beautiful Leicester.

Leicester has learned how to make herself beautiful from unpromising materials. She has no suitable building stone handy, and therefore out of red bricks, put together by cunning architects, she has constructed a city unlike any other in England. A local art school has fostered the spirit of beauty, and thus Leicester has triumphed over her limitations. She has been described as a rosy red town set in a mass of greenery. Even the lamp-posts have been designed by a sculptor who is not ashamed to let them bear his name.—London Chronicle.

HEALTH HINT FOR TODAY.

Freckles.

There is no perfect preventive for freckles, although they can be partially prevented by using a cream and then a good face powder before being exposed to the sun. An excellent method for removing them, which is often successful, is as follows:

Get an ounce of mercerized wax at the druggist's. Apply this nightly the same as cold cream, washing it off mornings. This will cause the offensive cuticle gradually to make way, by a process of gentle absorption, for the clear, velvety, healthy hued skin underneath.

NIGHT SCHOOL TO BE OPENED MONDAY, OCT. 20

Proposal looking toward the establishment of a night school in Newark for the benefit of persons of all nationalities, ages and color, which has been under consideration of the board of education for the past several weeks, assumed definite shape Tuesday night when the board stamped its approval on the idea and authorized procedure.

Details will be worked out immediately. It is announced, along the following lines:

The school will be in session in the High school building on Monday, Tuesday and Thursday evenings from 7 to 9:15 o'clock. The first session will be on Monday evening, Oct. 20.

Branches of Study Offered.

Common branches: Arithmetic, spelling, reading, and writing.

Commercial branches: Bookkeeping, typewriting, shorthand.

Industrial branches: Manual training, cooking, sewing and mechanical drawing.

Classes may be formed in other subjects, in case there is a demand, but there will be no class in any subject mentioned above, unless the number desiring it, should justify the organization of a class.

Day of Registration.

The Superintendent of schools will be in his office from 8 a. m. to 9 p. m. on Thursday, September 25, when all persons who desire to enter night school should register. It is very important that this be done on this day in order that teachers may be selected, and the organization perfected.

Charges and Tuition.

All pupils must furnish their own books, paper and other supplies.

No pupil will be admitted to the night school who is a member of the day school, or who is under the age required to secure an age and schooling certificate under the law, which is 15 years for boys, and 16 years for girls.

Pupils under 21 years of age who study spelling, reading, writing, or arithmetic, will not be charged any tuition.

Pupils over 21 years of age who study reading, spelling, arithmetic, or writing, must pay in advance 75 cents per month.

All pupils studying commercial or industrial branches must pay in advance at the rate of \$1.00 per month for each branch, regardless of the age of the pupil.

Twelve consecutive sessions shall constitute a month, and no reduction of tuition will be allowed for absence.

ence, excepting to those who are compelled to attend on alternate weeks on account of night employment.

The school shall be in session sixty nights, or five months, but may be discontinued at any time that the attendance or interest is lagging to such an extent as to justify it in the judgment of the board of education.

The school is open to married as well as single people, and to foreign born as well as native born.

Visitors to the Licking county fair the last day of September and the first three days of October will find things in ship-shape for the big exposition. Thomas E. Adams, superintendent of Moundbuilders' Park has been engaged for several days past in putting the grounds in shape. The grass has been cut until it has taken on the appearance of a green velvet carpet. Buildings have been cleaned and repaired and touched up with fresh paint.

This is only a minor feature of the many things which are being done to make the fair an attractive one. There is every indication that this year's fair will be the largest and best in recent years.

The county fair is distinctively a Licking county institution and the people of the county should take an individual interest in it. They should bend every effort to make the exposition a success.

The C. R. Parish Co's Seventeenth Semi-Annual One Dollar Down Sale

Begins tomorrow morning. Thursday is our Fall Opening Day. These great season opening SALES have become an institution with the people of Newark and vicinity, and we are sure to have a large crowd. We are entering upon this, the 17th of the series, with greater enthusiasm and brighter prospects than ever. We are so much better equipped—more floor space, larger stocks, a better assortment, a larger force, a better delivery service and a better store than we have ever had. As much of the absorbingly interesting news of our Fall Opening as we have been able to crowd into this space is for you to read, but the untold part is a hundred times greater. Every piece represents diligent care in selection and expert knowledge of furniture construction. We have religiously avoided cheap, gaudy or tawdry goods, in order that real dependable PARISH QUALITY merchandise might fill every nook and corner of the FOUR LARGE FLOORS OF THIS BIG STORE. You will find it all very humbly priced. You will do us an honor by inspecting it. Come tomorrow. We have a beautiful souvenir for you.

NEW SCHOOL BUILDINGS TO BE DEDICATED

With Special Program on October 10, 17 and 24—Board of Education Meeting.

According to a tentative program agreed upon by the board of education Tuesday night, all three of the new public school buildings will be formally dedicated with an elaborate program for each on October 10, 17 and 24, respectively. The buildings are nearly ready for occupancy. The dedication programs will consist of addresses by President Kibler and Clerk Haish, musical numbers by the students and selected orators will make speeches on additional topics.

Speakers suggested for the separate dedication programs were: Hartzler building, October 10, Frank Pierson, Ohio State university.

Mound building, October 17, State School Commissioner F. W. Miller.

Keller building, October 24, president of one of the state normal schools; to be selected.

It was announced that the D. A. R. had offered a flag for the Keller building, and that other organizations had signified their desire to furnish flags and staffs for the other buildings.

W. E. Painter was elected city examiner, at a salary of \$25 per year.

All children who will become of school age before April 1, will be admitted to the schools, but at no other time.

The board members decided to do away with the services of Mr. Segrist at the White playgrounds next summer, and raise the salary of Prot. L. G. Millisor from \$1,100 to \$1,400 for which compensation he would do his regular work in the High school for nine months, and then remain for the three summer months in charge of the playground, as director and custodian.

About \$75 worth of maps were ordered to be distributed as the superintendent thought best, especially in the new buildings.

Bills to the total of \$2,313.78 were allowed.

An estimate was submitted from the Huffman-Conklin company which was the first to be received for erection of the Conrad building, amounting to \$1,089. This was allowed by unanimous vote.

A communication was received from the state board of health with regard to the Grand street school, approving the specifications covering sanitation of the building, subject to several conditions, which the board is willing to comply.

Two bids were received for constructing six-inch sewers from Keller building to the creek, a distance of about 250 feet. Dicken & Reinhold's bid of thirty-four cents per foot was accepted. The only other bid was that of Frank P. Willard, seventy-five cents per foot.

The board agreed to the plan to dismiss all public schools on Friday, October 3, for "School Day" at the Licking county fair.

Superintendent Hawkins announced the present enrollment of the High school at 625, the largest in its history.

The board approved the idea of equipping a new room in the Mound building where an adjustment will be made in the first and second grades, between that building and the Maholin building.

President Kibler appointed Clerk Haish, Superintendent Hawkins, Principal Barnes, with principals of the three buildings, as a committee to arrange the program for the dedication of the Hartzler, Mound and Keller buildings.

With the allowance of the September payroll for teachers, Clerk Haish announced that in anticipation of the amount coming in from taxes next February, it would be advisable to authorize the president and clerk to negotiate a loan of \$15,000, as the board's account is already overdrawn \$11,000 in spite of the fact that the board received its share of the taxes due on Tuesday.

The amount anticipated in February is estimated to be about \$65,000 or \$70,000.

Miss Haughey, principal of the Central building, was authorized to place two lights in the building where needed.

FIRE ON STOCK FARM. (Associated Press Telegram.) Lexington, Ky., Sept. 17.—The club house at Castleton Stock farm, automobile garages, stock barns and dairy plant were destroyed by fire last night with a loss of \$100,000.

AL G. FIELD WILL GIVE THE ANNUAL MINSTREL BANQUET

For 25 years it has been the custom of Al. G. Field to give a banquet each year, celebrating the termination of his company's year, and the beginning of the next. The 25th annual banquet of the company was given in Columbus, Ga., and it so happens that the dates of the company will see it in Columbus, Ga., on October 6, 1913. These banquets have been given in cities all over the United States, but it has never been the good fortune of the company to celebrate the vent in the home city of Mr. Field where the company was organized. The Al. G. Field Minstrels were organized in Columbus, Ohio, July 4, 1886. The company rehearsed in that city, but the opening performance was given in Marion, October 6, 1886. There were 27 men on the roster of the company, 15 of whom are known to have passed to the great beyond. Three are unaccounted for, nine are still in the land of the living, but one other than Mr. Field, who was with the company at its opening is still connected with it; Joe E. Hartfield has been on the salary list of the company since July 15, 1886. Mr. Hartfield rarely travels, he looks after Mr. Field's farm and other property in Columbus, Ohio, visiting the company at long intervals. The annual banquets generally see him present. All of those who were of the company at its beginning have been invited to attend the annual banquet, and Col. Charles Sweeney, generally known as "Pop" who was the first stage manager and assisted Mr. Field for months in the preparatory work of launching the company, will travel from Peru, Ind., to Columbus, Ga., to be present at the banquet.

The Al. G. Field Minstrels is the oldest traveling theatrical organization in the world. It is the oldest minstrel show in the world, and has toured continually since the date of

MAMMA, DADDY AND CHILDREN ALL LOVE "CALIFORNIA SYRUP OF FIGS"

Harmless "Fruit Laxative" Cleanses the Stomach, Liver and Bowels Without Any Gripping.

A delicious cure for constipation, biliousness, sick headache, sour stomach, indigestion, coated tongue, salivaceous—take "California Syrup of Figs." For the cause of all this distress lies in a torpid liver and sluggish bowels.

A table-spoonful tonight means all constipation, poison, waste matter, fermenting food and sour bile gently moved out of your system by morning without gripping. Please don't

think of "California Syrup of Figs" as a physic. Don't think you are dragging yourself or your children, because this delicious fruit laxative can't cause injury. Even a delicate child can take it as safely as a robust man. It is the most harmless, effective stomach, liver and bowel regulator and tonic ever devised.

Your only difficulty may be in getting the genuine; so ask your druggist for a 50 cent bottle of "California Syrup of Figs." Say to your druggist, "I want only that made by the 'California Fig Syrup Company.'" This city has many counterfeit "fig syrups," so watch out.

The pike seems to be growing faster now as the work gets closer to the material.

Charles J. Benedict and J. F. Bricker are each building a Silo for the purpose of storing ensilage to increase the flow of milk this winter.

Mrs. D. D. Downey and Mrs. W. M. Vanderbark and daughter, Emogene, of Newark, spent the past week with A. R. Reynard's and D. W. Larue's families.

Mrs. and Mrs. W. W. Ramsdell and family motored through from Cleveland and are visiting with Mrs. Ramsdell's sister, Mrs. Clyde Burson, and both families, eight in all, rode in the seven-passenger car to and from the Hartford fair where they spent the afternoon Friday.

Mr. and Mrs. C. E. Burgoon and daughter, Pearl, spent Sunday with Mrs. Trotter and Miss Pearson of Jamestown, R. D.

"WHERE'S JOHN?" ASKS FRANCISCO; SEEKING DIVORCE

Francisco Renra would like to know where to find John. Which John, or John who, is the issue with Francisco. For John, the Francisco's inez, and maybe they are far across the ocean blue.

But since Francisco is satisfied that inez left with John, and, moreover, since John's whereabouts are unknown to Francisco as well as his whereabouts, the latter is taking chances on the return of a penitent and pleading wife, but has applied for divorce. The application was filed by Attorneys Smythe & Smythe. It says that Francisco and inez were married in October, 1911. To all intents and purposes it would seem inez had remained faithful until the fateful year 1913. Francisco not only charges that inez was grossly unfaithful to him prior to September 1st, last, but insists that she disappeared with John on that date. Francisco and inez have no children.

Tank Beverly says he has noticed that plays "endorsed by the clergy" seldom succeed in securing the approval of theatre goers.

Readers' Viewpoint

On September 15th J. T. Clunis, the Hebron undertaker, called at my house and drove me to the infirmary where two bodies were to be buried, one an inmate of the infirmary, Lotie Burkham, by name, the other an unknown man who was found along the road near Central City last week in a bad condition physically.

The writer first gave a talk to some of the old ladies who were not able to leave their room in the hospital building, after which I went to the chapel where the two bodies had been placed ready for burial. Here I found a number of inmates and also the matron, nurse and other employees of the institution assembled for the service.

The present manager says he thinks these poor people should have a decent burial. To lay them away without religious services is too much like burying dumb brutes. He will try to arrange for services each time.

Hunter is Killed Hunting Squirrel Near Lancaster, O.

Lancaster, Sept. 17.—Thomas Garrett, aged 25, a carpenter of Lancaster, was killed yesterday afternoon while hunting squirrels on the farm of his father-in-law, one mile west of Lancaster. It was in attempting to cross a fence with a shotgun in his hands that Garrett accidentally discharged the weapon, the lead of shot passing through his heart.

Garrett's father-in-law was cutting corn in an adjoining field and found the man lying dead in a pool of blood. Garrett is survived by a widow and four small children.
